

# DECLARATION OF COMPLETION

**David Warwick**

IN RECOGNITION OF COMPLETING THE XIAPEX TRAINING PROGRAMME

The licence as approved by the European Medicines Agency (EMA) states that Xiapex must be administered by a physician appropriately trained in the correct administration of the product and experienced in the diagnosis and management of Dupuytren's disease. This document certifies that the above physician has been officially trained in the administration of Xiapex in accordance with the regulations requested by the EMA. It attests that the named physician who has entered the training programme as a physician experienced in the management of Dupuytren's disease is permitted to use Xiapex in accordance with the licence requirements.
